

Encore Chair

Equipped with all the features of an ergonomic chair, the Encore is configured to meet the needs of all users. Standard features include a seat slide with a five position lock-out and adjusts from 16" to 19", a forward seat tilt that goes from a locked +2 degrees to an unlocked -2 degrees, and a waterfall seat front that eliminates stress to your legs and thighs. Other features include an adjustable seat and back height to accommodate the individual user, a back angle adjustment, and tension control that will relieve backrest pressure for the different body weights.

The Encore is available with or without arms and comes in a variety of fabric choices.
