

## Polo Chair

Want a chair that is simply resourceful? The Polo is just that. Its mesh back allows for ventilation of body heat and the contoured back rest allows users to sit naturally. Easy adjustment of the lumbar support can be made by adjusting a knob to support the lumbar of every individual. The Polo features a soft and plush upholstered seat that allows users to sit for longer hours and the waterfall front helps reduce pressure on your legs.

It wouldn't be a chair without fully adjustable arms and back, and the Polo has just that. There are an infinite number of adjustable locking positions for the back angle which gives comfort for the whole body and the soft-padded armrests rotate, adjust in height and width, and lock easily into desired positions.

The Polo comes standard in black fabric only.
