## Novel Tables

Outstanding functionality, superior design, and true to their name, Novel Tables are striking...different...unusual. Novel is especially useful in a training environment, where tables are needed to be arranged in various configurations while allowing for easy access to power and data.

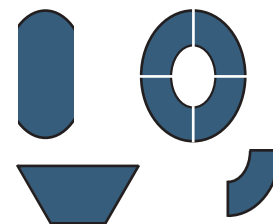

Built together with great design and great function, the Novel Tables provide a contemporary look and feel and offer multiple design options. The tables can be arranged in traditional, linear layouts or innovative configurations, and are available in shapes of round, square, rectangle, trapezoid, racetrack, half-round and crescent.
